NEW MACHINERY

In May, our Operations Manager and Production Manager supervised the installation of new machinery.

We have expanded our machinery with the addition of a new FujiFilm PrimeL alongside the flatbed machines installed in 2023, bringing the total number of flatbed printers in Brisbane to four.

Additionally, we have acquired a Roland Kiss-cutter and a rollover lamination table. These machines will enhance our capability to produce high-quality products efficiently.

INTERVIEW – DAVE WALTON,
CEO

Meet Our Team – Staff Profile
Kameel King & Jason Kirk

01/02

Change is an inherent aspect
of life.

MEET OUR TEAM

Jason Kirk

Jason, known as the Signage Guru and National Project Manager at MMT Print, serves as the primary authority on all matters related to signage and digital print.

Commencing his journey at MMT Print as a Sales Cadet at the young age of 20, he briefly ventured into new realms before returning in 2018, enriched with experience and enthusiasm.

Outside of his professional endeavours and avid support for sports teams, he can be found showcasing his prowess on the golf course, confidently manoeuvring ladders, or enjoying leisurely strolls accompanied by his pair of golden retrievers, Wilson and Koda.

Our CEO, Dave Walton, was recently highlighted in the magazine "Sprinter." For more updates on MMT Print & Omnigraphics, click the following link.

Kameel King

Meet Kameel, our Production Maestro at MMT Print, keeping the team sailing smoothly through order chaos. Starting with MMT Print as a Customer Service champ back in 2006.

When not cracking the whip at MMT Print, she's a supermum to her two boys, possibly with a glass of wine in hand. You may even hear her cheering on her beloved Roosters at a Rugby League match.

And guess what? Her dream getaway spot is the land of the rising sun, Japan!
